

The background is a dark blue gradient with abstract light effects. It features numerous out-of-focus blue and white circular bokeh lights scattered across the frame. Additionally, there are several thin, glowing blue lines that resemble fiber optic cables, some of which have small white dots at their ends, creating a sense of depth and movement.

Azure Migration Program (AMP)
is now...

Azure Migration and Modernization Program (AMMP)

Azure Migration and Modernization Program (AMMP)

Get support with your migration and modernization needs across Apps, Data, and Infrastructure

The right mix of resources and expert help at every stage of your cloud journey

Proven approach:
Microsoft Cloud
Adoption Framework
and Well Architected
Framework

Cost-effective
offers and
incentives

Technical
skill building

Free tools/
automation:
Azure Migrate

In-depth
assistance from
FastTrack for
Azure engineers

Expert help
from specialized
services partners

Support
environmentally
sustainable
initiatives

Azure Migrate

Azure Migrate

Supports breadth of **migration and modernization** scenarios

Integrated **discovery, assessment, and migration** capabilities

Powered by Microsoft and **extensible with ISV partner** tools

Centralized migration repository with **end-to-end tracking**

Recent updates

Integrated **discovery and assessment** for **SQL Server** migration and modernization

App containerization: Modernize your apps to Azure Kubernetes Service (AKS) or Azure App Service | **Preview**

At-scale discovery and assessment of webapps | **Preview**

2x scale: 500 parallel VMware VM migrations (agentless)

Automation: Azure Migrate PowerShell

Speed and security: Private endpoint and replication over ExpressRoute
